

# HIMASH BANDARA

UNDERGRADUATE BSC COMPUTER SCIENCE

## Profile

As a Computer Science undergraduate, I'm deeply passionate about technology, particularly in full-stack development and mobile application design. Through coursework and projects, I've honed my skills in languages like HTML, CSS, JavaScript, Java, Python, SQL and Dart, and Flutter Framework enabling me to create seamless, user-centric applications for both web and mobile platforms. I'm driven by a desire to leverage technology for positive change, whether it's through educational apps or innovative solutions to real-world problems. I'm eager to continue learning and collaborating with others to push the boundaries of what's possible in software engineering.

- Time Management
- Leadership
- Flexibility
- Team Work
- Problem Solving
- Multitasking
- Communication

### Technical Skills

- HTML
- CSS
- Flutter
- Dart
- Firebase
- SQL
- Adobe
- PHP
- Java
- Python
- React js
- GitHub
- Figma UI/UX

## Projects

2022

### ART GALLERY WEBSITE

*Tech Stack - HTML, CSS, JavaScript*

I've recently completed the development of an art gallery website utilizing a combination of HTML, CSS, and JavaScript. This project served as an opportunity to blend my technical skills with creative expression, resulting in a visually appealing and interactive platform for showcasing artworks.

2022

### TICKET BOOKING SYSTEM

*Tech Stack - Java*

The Movie Theatre Ticket Booking System streamlines ticket reservations, seat checks, and payments. Users can easily book tickets, manage bookings, and check seat availability. Real-time updates, secure payment processing, and instant confirmations ensure convenience and security. Its user-friendly interface offers a reliable solution for movie-goers.

2024

### MEDFRIEND LANKA

*Tech Stack - Flutter, Dart, GitHub*

"MedFriend Lanka" is your ultimate solution for seamless booking of bystanders for patients, right from your mobile device. With our app, you can easily schedule assistance for medical appointments or emergencies. Plus, our innovative healthcare recommendation system allows you to rate and provide feedback, ensuring top-notch care every time.
